

Our main goals for this division of our junior tennis academy are to instill the basics of proper technique and to create a lasting interest in tennis through fun exercises and creative teaching methods. Qualified instructors implement a mix of "Progressive Tennis" techniques, feeding based drills, coordination and footwork exercises. Strokes are broken down into basic elements and simplified for the children. Instructors make sure the students have fun through use of games, contests, partner drills and other challenges. Feedback is kept simple and encouraging. Classes are active and the teaching environment is very positive!
